MEN'S PELVIC FLOOR CONSENT FOR EVALUATION AND TREATMENT

I acknowledge and understand that I have been referred for evaluation and treatment of pelvic floor dysfunction. Pelvic floor dysfunctions include, but are not limited to, urinary or fecal incontinence; difficulty with bowel, bladder, or sexual functions; painful scars after surgery; persistent sacroiliac or low back pain; or pelvic pain conditions.

I understand that to evaluate my condition it may be necessary, initially and periodically, to have my therapist perform an internal and external pelvic floor musculoskeletal examination. This examination is performed by observing and/or palpating the perineal region including the rectum. This evaluation will assess skin condition, reflexes, muscle tone, length, strength and endurance, scar mobility, and function of the pelvic floor region. Such evaluation may include rectal sensors for muscle biofeedback.

Treatment may include, but not be limited to, the following: observation, palpation, use of rectal or perineal sensors for biofeedback and/or electrical stimulation, ultrasound, heat, cold, stretching and strengthening exercises, soft tissue and/or joint mobilization, and educational instruction.

I understand that in order for therapy to be effective, I must come as scheduled unless there are unusual circumstances that prevent me from attending therapy. I agree to cooperate with and carry out the home program assigned to me. If I have difficulty with any part of my treatment program, I will discuss it with my therapist.

1. The purpose, risks, and benefits of this evaluation have been explained to me.
2. I understand that an internal and external pelvic floor examination are part of treatment of the pelvic floor for which I have been referred.
3. I understand that I can terminate the exam at any time.
4. I understand that I am responsible for immediately telling the examiner if I am having any discomfort or unusual symptoms during the evaluation.
5. **I have the option of having a second person/chaperone present in the room during the procedure and I (please check one of the following options)**

☐ **choose to have second person/chaperone present**

OR

☐ **decline to have a second person/chaperone**

Patient may be required to supply their own second person/chaperone.
Innova will supply when possible.
